INTERNSHIP

Frontend Developer | Flydex Automobiles | August 2019- October 2019

- Worked on building the fully responsive website of the startup using ReactJs as the frontend tech.

EXPERIENCE

- Student Co-ordinator at CodeClub SMVDU
- Contributed to some Open source organisation like Vega.
- Organised Hackathon 1.0 in our university.
- Participated in Kharagpur Winter of Code 2017 and SIH 2018.

Conferences

- [Attended](#) Pycon India 2019 and some other workshops.
- Participated in TED-X SMVDU.

PROJECTS

Chat-App:- Real time chat-app built using Node.js as backend and ReactJs as frontend. It also uses socket.io to enable real time bi-directional communication between client and server and deployed using the Heroku platform. [Link](#)

Burger-Store:- Made with ReactJs and some other front-end technologies by using firebase as a database for authenticating the user's information and validating them. [Link](#)

Portfolio:- Portfolio using JavaScript and other frontend technologies like HTML,CSS and Bootstrap and deployed using GitHub. [Link](#)
